Abortion Violates the Laws of God

We need to review certain facts. First of all, the most beautiful thing a woman can be is a mother. Only women have the power to populate God's earth and women are the ones who nurture and cherish their children. But, sad to say, the most dangerous place on Earth today is the womb of a mother. That is because of legalized abortion – a vicious taking of a life. We need to take the blinders off our eyes and see the horrendous evil that is abortion. It is an abomination in God's eyes. There is absolutely no government, no law and no man that can override or veto God's law. Get the facts. Do not believe the lies from the abortion industry. Don't be fooled into believing it's just tissue in the womb. It's a baby.
